

STATEMENT OF VALUES AND SCHOOL PHILOSOPHY

Coburg Primary School is proud to be a Victorian State Government School that provides a continuum of learning from Foundation to Year 6. Our mission is to provide the highest level of public service to our community of parents and students.

We are a diverse, friendly and inclusive community at Coburg Primary School. Our doors are always open to everyone with an extended hand of friendship.

Located in the bustling hub of the inner northern suburb of Coburg and close to parks, sporting facilities and shops, Coburg Primary School is a government Foundation (Prep) to Year 6 school with an anticipated enrolment of 300 in 2021.

Coburg Primary School provides a range of valuable programs with a focus on ensuring that every child feels welcome and a part of our school community.

Our cultural and social diversity greatly enriches our school and this diversity is highly valued by our whole school community. At Coburg Primary School we encourage parents to participate fully in school life.

The partnership between home and school is highly valued and underlines the importance of parents and carers in all aspects of their child's education.

Coburg Primary School has a very rich and colourful 168-year-old history. We embrace and acknowledge the past in all that we do. The school is proud of the fact that we have been educating children across three centuries.

OUR SCHOOL - SCHOOL VALUES

Our school values underpin everything that we do at Coburg Primary School and are part of everyday life for the staff, students and families.

We try to instil in ourselves and others the ability to look at the bright side of things, using humour appropriately to ease tensions and learning to laugh at oneself and with others.

Our students are encouraged to examine both their behaviour and learning styles to ensure that they fit with our school values.

HONESTY

When we are honest, we are being open and truthful in our actions, thoughts and words. Honesty shows both self-respect and respect for others.

LEARNING

We value learning when we respect our own and everyone else's right to learn, taking responsibility for the way we interact and cooperate with other students and teachers. We strive to become creative thinkers and to develop work habits that allow us to produce excellent work that we can be proud of at all times.

RESILIENCE

We show that we can use a range of strategies to overcome different kinds of adversity or hardship and 'bounce back' whilst continuing to remain positive and be willing to try again.

TEAMWORK

We demonstrate teamwork when we can work together with a group of people to achieve positive outcomes.

RESPECT

We are respectful when we are polite, considerate and thoughtful to all others regardless of gender, age, race, religion or disability. We show respect to our friends, our family, teachers and members of the community. We also try to earn the respect of others.
